

The "Reproductive Freedom for All" (RFFA) amendment is a proposed constitutional amendment that will be on the ballot in Michigan this November. This amendment is not what we were told it is. **It is dangerous for the women, children, and parents of Michigan.**

The RFFA amendment allows infanticide without the right to investigate, abortion at any point during the pregnancy, minors obtaining abortion, sterilization, & puberty blockers without parental consent, the abolishment of all Informed Consent Laws, taxpayer funded abortion, and much more.

We must not allow this amendment to become part of Michigan's constitution. **Do not support the dangerous Reproductive Freedom for All amendment on your November 8th ballot.**
